

Quantity Editor- Installation/Set-up Guide

1. **Disable Compilation Mode:** To check that this is disabled, go to System->Tools->Compilation. If the compiler status is 'Disabled', you are ready to go. If not, simply click the 'Disable' button on the right hand side of the screen.
2. **Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
3. **Clear Caches:** This can be done from the admin console by navigating to the cache management page (System->Cache Management), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change. Logout and login back in Admin.
4. **Admin Configuration:** Go to Admin ->System->Configuration-> Scommerce Configuration -> Auto Apply Coupon Code-> General
 - a. **Enable :** Enable / Disable Module
 - b. **License key :** Enter License key provided by Scommerce Mage
5. **Product Quantity Editor:** Go to Admin->Catalog->Manage Products
 - a. Now with each product quantity there will be an edit button.
 - b. Click on edit button or double click on quantity itself to activate the edit text box for quantity.
 - c. Once text box appears edit button will change into save.
 - d. Change the quantity as desired then click on save button or just press enter to update.
